

Chip Installation Change Notice and Instructions Lexmark Optra T

Oasis Imaging Products, Inc. Technical Support: 800- 322- 8992 ext 110

Reference Information:

Plug-in Chip XtrAdhs: 59CHCHIPB

OEM Cartridge:

Lexmark Optra T: 12A5845

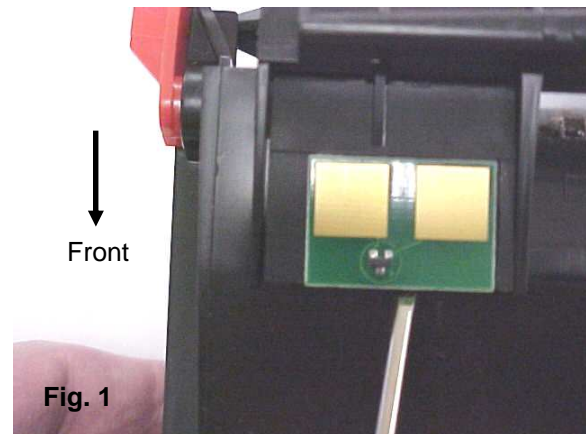

Tools Required:

Small Flat Screwdriver

The instructions on the 59CHCHIPB aftermarket chip packaging work with older Lexmark Optra T OEM cartridges. These instructions **will not work** on new Lexmark Optra T OEM cartridges due to a design change adding a plastic insert .

The instructions below will ensure a proper fit for the 59CHCHIPB chip and newer Lexmark Optra T cartridges.

1. Pry the OEM chip and plastic insert off the cartridge with a small flat screwdriver (Fig. 1).

2. Peel the backing off the foam on the back of the aftermarket chip and attach to where the plastic insert was located. Notice that the cutout on the aftermarket chip fits into the plastic rib at the back of the cartridge (Fig. 2).
